

## Notice Of Main Monthly Meeting For June

The next Main Monthly Meeting of the PC Users Group will be held on Wednesday 6<sup>th</sup> June 2007 from 7:30pm at the Rheinberger Centre conference room.

The presenters this time are two of our own members – Mike Dinn and John Saxon. They were at the ‘pointy end’ while history was being made in July 1969 when they were running the operations at Honeysuckle Creek Tracking Station. The first images of man landing on the Moon were received right here in the ACT and relayed to the world by the team of which Mike and John were part. They brought to a world-wide audience the famous words spoken by Neil Armstrong - “one small step for man ...” . Come and enjoy an evening as they tell us their story and describe some of the technology used almost 38 years ago for this unique achievement. And ... will they have anything to say about all the conspiracy theories that the whole event may have been a fake!

The meeting is free and open to the public. Entry to the Rheinberger Centre is via Loch Street on the corner of Weston Street Yarralumla. The centre has well lit grounds, easy access to the conference room and plenty of off-street parking.
