

Notice Of Main Monthly Meeting For August 2007

The next Main Monthly Meeting of the PC Users Group will be held on Wednesday 1 August 2007 commencing at 7:00pm for 7:30pm at the Rheinberger Centre conference room. The presenter is Chris Gacesa the Solution Architect for Novell working from their Canberra office. He will introduce us to Novell's Linux offering, Open Suse 10.2, and compare it with their Enterprise Desktop/Server distribution.

Whether you are already a Linux user or not, you will find the insight into this alternative operating system of interest. You will be able to compare the features in Linux with those in Windows and learn which applications you can use. Chances are, that you can use the same application under Linux as you now use under Windows. So here is something worth considering, especially as there is so little cost to you under the concept of open source software. Chris will tell us about the investment large corporations like Novell are putting into it. See his presentation at our MMM on August 1st. There will be time for your questions during the presentation.

The meeting is free and open to the public with plenty of comfortable seating so feel free to invite a friend or colleague. Entry to the Rheinberger Centre is via Loch Street on the corner of Weston Street Yarralumla. The centre has well lit grounds, easy access to the conference room and plenty of off street parking.
