

Notice of Main Monthly Meeting for 13 May 2008

The next Main Monthly Meeting of the PC Users Group will be held on Tuesday 13 May 2008 from 7:30pm at the Cameron Grant Community Centre, Mulley Street Holder. The topic is "Our Local ABC Online". Ping Lo, Online Producer at ABC Radio Station 666, will be our presenter tonight. She will bring us the information about the newly launched website for ABC 666.

No matter what the industry or service, the internet has become increasingly one of the most important ways to communicate with your audience. It is hard to imagine any successful business without an internet presence these days. The ABC has embraced the internet as an essential way to let us know what is planned on radio and television. Ping Lo will show us how the site for the local ABC station 666 has developed. As well as finding out what is planned ahead in programs, there is also a lot which can be obtained from historical information about programs previously put to air. You can even listen to earlier programs and catch up on programs you may have missed or would like to hear again. Additional information about presenters or background information to a program is also available. Ping will walk us through the new ABC Local site and give us an idea of what is in the pipeline. She will tell us about known issues and how to interact with the site.

There is always time for your questions during the presentation. After the meeting you are welcome to discuss the topic further with the presenter, Ping Lo, over a cuppa and biscuits. The meeting is free and open to the public, so invite a friend or colleague. The Cameron Grant Community Centre has parking space along the front just off Mulley Street and is well lit.
